4. Runner's commitment

To participate in the Bucovina Ultra Rocks® event it is essential:

- To be completely aware of the length and specificity of the event and to be perfectly prepared for it;
- To have acquired, previous to the race, real capacity of personal autonomy in the mountains allowing for the management of problems induced by this type of event, and notably:
 - Know how to confront, without outside help, climatic conditions which could be very difficult to deal with at altitude (night, wind, cold, fog, rain or snow) ;
 - Know how to manage, including when one is isolated, physical or mental problems arising from great fatigue, digestive problems, muscle or articular pains, small wounds...
 - To be totally conscious that the organization's role is not to help a runner manage these problems.
 - To be totally aware that for such an activity in the mountain's security depends upon the runner's capacity to adapt to the problems encountered or foreseen
 - To inform and to sensitize the members of the runner's entourage towards the respect of nature, people and the regulations of the race.
 - To accept to receive newsletters providing information about the event.

5. Semi autonomy

The principal of an individual race in semi-autonomy is the rule. The Bucovina Ultra Rocks events take place in one single stage, at an undefined pace, within the limits of the time barriers which are specified for each event. Semi-autonomy is defined as having the capacity to be autonomous between two refreshments posts, as much on the food front as that of clothing and security, allowing for adapting to problems encountered or foreseen (bad weather, physical problems, injury...)

This principle implies, in particular, the **following rules**:

1. Each runner must have with them throughout the duration of the race the totality of their mandatory equipment (see next paragraph EQUIPMENT). At any moment of the

race, pack and its contents can be checked by the race officials. The runner is obliged to submit to these checks in good faith, at the risk of exclusion from the race.

2. The refreshment posts supply drinks and food to be consumed on site. The organization only supplies still water or energizing drink for filling water bottles or hydration packs. When leaving the aid station, the runners should take care to ensure they have the quantity of drink and food which is necessary to keep them going until the following aid station.
3. Personal assistance is tolerated exclusively at certain aid stations (*), in the zone specifically reserved for this use. Assistance can only be given by one person, without specific equipment other than a bag with a maximum volume of 30 litres. Assistance given by a team of professionals, or any medic or paramedic, is strictly forbidden. The rest of the refreshment post is strictly reserved for the runners.
4. It is forbidden to accompany or be accompanied along any part the race route by a person not registered for the race, outside of the tolerance zones which are clearly marked in the proximity of the refreshment posts.

Note: A participant who accepts being filmed, and therefore accompanied, outside of the expressly designated zones contravenes the principle of semi-autonomy. The race officials witnessing irregularities are authorized to penalize the participants in order to guarantee the spirit of trail-running events.

(*) Personal assistance is tolerated at the following aid stations: Rarau, Rusca, Valea Putnei, TransRarau (not aid station) and supplementary in Paltinis and Vatra Dornei for Beast 180 race.

6. Pacers for BEAST 180k race

Pacers may accompany runners from Vatra Dornei to the finish line. Pacers may also start or stop at aid stations (Vatra Dornei, Giupalau, Stana Transrarau). Pacers may meet their runner ONLY at aid stations. Pacers are responsible for getting themselves to and from aid stations. Finally, a runner may have only one pacer at a time. In the interest of runner and pacer safety, all pacers must check-in at registrations desk before the race and sign a waiver if they intend to join their runner. Upon signing the waiver, pacers will receive a wristband. This wristband must be worn while on course with their runner. Please note, any pacers under the age of 18 will be also be required to have a parent or adult legal guardian sign their waiver.

Pacers must run at least the whole leg to the next crew access or specifically allowed aid station, as there is generally no access for them in between. Pacers may not continue unless accompanying their runner.

Please note that pacers are more for moral support than for physical. The Beast 180 was developed as a test of the individual against the mountains. "Muling" is a violation of the rules and spirit of Bucovina Ultra Rocks. For safety reasons we do not disallow pacers and, because we cannot see what you do out in the mountains, we trust your honour to not cheat on this in the same way as you would not short-cut, litter or stash supplies out on the course.

7. Equipment

In order to ensure their security and the good progress of each event, each participant must have at their disposal the all the mandatory equipment on the list, detailed below.

The “hot-weather”, “cold-weather” kits are integrally a part of the obligatory equipment. According to the weather conditions, the organizers can activate a kit and inform each participant before the opening of the race-bib distribution for their race. Each participant must, therefore, present their mandatory equipment, including the kit activated by the organizers, in order to retrieve their race-bib, and agree to keep it with them throughout the event.

It is important to note that the material imposed by the organizers is a vital minimum which each trail-runner must adapt in function to their own capacities. In particular, they must not choose the lightest weight clothing possible in order to gain a few grams but opt for clothing which really offers good protection in the mountains against the cold, wind and snow, which therefore give better security and better performance.

8. Insurance

Competitors are advised to have medical insurance. Each competitor should be covered by accident insurance. This must cover potential costs for Rescue operations (particularly helicopter evacuation, search, and action by rescue) and treatment. Any damage claims from competitors against the Race Organizer, regardless of their legal reason, are void.

For members of the **ITRA (International Trail Running Association)**, it is possible to subscribe to an Assistance – Repatriation insurance which covers the cost of search and rescue world-wide. For more information go to www.itra.run

The choice of the method of evacuation and the actual choice of hospital is at the discretion of the search and rescue and medical officials. Expenses arising from the use of exceptional methods of rescue or evacuation have to be paid by the person rescued who will also have to pay their return from the place to where they were evacuated. It falls to the runner to create their file and present it to their insurance company within the stated time limit.

9. Respect for environment

By registering for the Bucovina Ultra Rocks® event, participants agree to respect the environment and the natural areas they pass through. In particular :

- It is strictly forbidden to abandon your rubbish (gel tubes, paper, organic detritus, plastic wrappers...) along the race route. Trash/rubbish bins are available at each aid station and it is imperative that they are used. The race officials conduct random checks all along the race route.
- All participants must keep any rubbish and wrappers with them until they can throw them in the bins which are provided for them at each aid stations. The organization encourages runners to equip themselves with a bag or pouch in which to transport their waste to the next bin.
- It is imperative that you follow the paths as they are way-marked, without short-cutting them.
- No disposable plastic dishes (cutlery, cups, bowls) will be distributed at the aid stations. This is to reduce the plastic usage by runners, as well as by the volunteers of the Bucovina Ultra Rocks. Instead of the plastic utensils, the organizer will provide wooden or paper ones.

Only the organization can transfer this right for images and videos to any media, via an accreditation or relevant license. All communication about the event or the use

of images or videos from the event must respect the name of the event, the registered trademark and have official approval from the organization.

12. Personal Data Protection Policy

With the registration, the participant agrees that personal data can be gathered and passed on to third parties for the purposes of timekeeping, rankings, and results as well as for the publication of respective lists on the internet. The information is collected as part of a registration for one of the Bucovina Ultra Rocks races, for the needs of the organization and in particular to identify each competitor in order to communicate his/her information related to his/her participation before, during or after the event. The participant agrees that his first name, last name, country, date of birth, team name, bib number and results (ranking, time) may be published in all print and electronic media relevant to the event.

The runner's data is kept in the database for 10 years. This period is renewable at each registration and corresponds to the legal data retention period of the medical and non-contraindication to the practice of athletics or running in competition certificate, or the sports card. Beyond these 10 years, and unless the runner authorizes the organization to keep his/her data, all data are deleted except the runner's surname, first name, date of birth, gender and nationality to maintain the rankings.

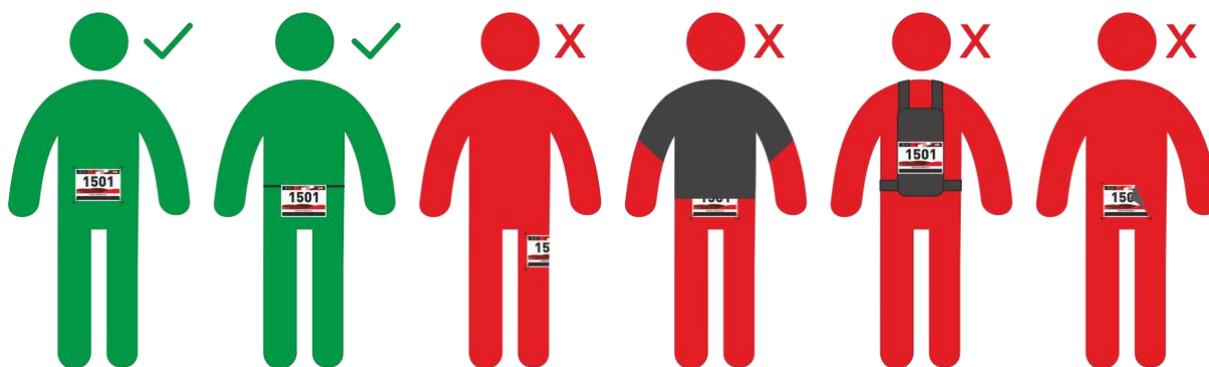

According to the General Data Protection Regulations (EU RGPD 2016/679), any competitor has the right to access and amend every information concerning him/her. This can be done via his/her runner's page which is available at the 42km.ro network platform. Any data modification can be made by the competitors themselves.

13. Race Bibs

Each race bib is distributed individually to each runner upon presentation of an ID card or passport (document with the photo),

Your race pack and all the mandatory equipment

The race bib must be worn on the chest or stomach and be permanently and completely visible throughout the totality of the race. It must always be placed on top of all clothing and can in no case be positioned on a leg or pack. The name and partner's logos must not be either modified or hidden. The race-bib is the pass necessary for accessing the shuttle buses, buses, refreshment posts, infirmary, rest areas, showers, drop-off or pick-up areas for drop sacks... Except in the case of a refusal to comply with a decision taken by a race official, the bib is never taken away. Only in the case of abandonment, the bib is deactivated.

14. Drop Bags

180k, 110k, 88k: each competitor receives a big (50-liter) bag

The big one: for the aid station RUSCA (110k, 88k), for the aid station PALTINIS (180k). After having filled it with the necessities of their choice and having closed it they can drop it off **ONLY** in the designated area in Campulung Moldovenesc **NOT LATER THAN MIDNIGHT 30-31.07.2021** (for 110k, 88k) and before the race for 180k. This bag is taken to aid station RUSCA/PALTINIS by the organization. Upon arriving in RUSCA the runner withdraw their bag. When they leave the aid station they, personally, leave their bag in the designated area. The bags are then returned to Campulung Moldovenesc when the CP is closed.

Recuperation of bags in Campulung Moldovenesc: The bags are returned to either the competitor or a family member or friend, uniquely upon presentation of the race-bib. The bags must be recuperated no later than 2 hours after the end of the race. After that time, the runner must come, in person, to recuperate their bag, at their own cost, from the organization in Campulung Moldovenesc.

The organization ensures the repatriation, to Campulung Moldovenesc, of any bags of runners who abandon, on the condition that the abandonment has been registered. The delay of the repatriation is in relation to logistical constraints and the organization cannot guarantee a complete repatriation of bags before the end of the race.

Only bags supplied by the organization will be transported. Poles are not allowed in these bags. The contents of the bags will not be verified, no complaint about the contents of the bag at the finish will be accepted.

15. Aid Stations

The organization ensures the presence of solid and liquid refreshments along the race-route. The aid stations supply drinks and food for consuming in situ. The organization supplies still water and energizing drink for filling water bottles/hydration packs and personal beakers. The competitor must take care when leaving each aid station, that they have enough food and drink to last them to the next aid station.

Only runners wearing a visible race-bib who have been duly checked have access to the aid stations. The Official Race Guide (to be published in July 2021) will have a complete list of aid stations and what they serve.

16. Control points

A check is carried out at the arrival at an aid station and at certain security posts. **Unexpected check posts are set-up at posts other than those of aid stations or security posts.** Their location is not divulged by the organization.

17. Way Marking

The courses will be marked with a few thousands fluo flags on the course (every 50-100 meters) along with around 150 arrow signs and a few kilometres of red-and-white stripe tape and also eco-spray pistachio on the rocks and trees. For better sighting at night, the way-markers are fitted, in part, with reflective material which attracts the light of your torch. In the urban areas, the course will be marked with red-and-white tape along with the arrows sprayed on the asphalt surfaces.

ATTENTION: if you don't see any course mark for some time (longer than 200 m), turn back!

18. Time Limits

The maximum time for the event, for the totality of the route is fixed at:

- **110k:** 30 hours
- **88k:** 24 hours
- **48k :** 14 hours
- **33k :** 8 hours
- **15k:** 3 hours
- **180k:** 50 hours

These time barriers are calculated to allow competitors to arrive at the finish within the maximum time allowed while having made eventual stops (rest, food...). **In order to be authorized to continue with an event, competitors must leave the checkpoint before the time limit** (whatever their time of arrival at the checkpoint).

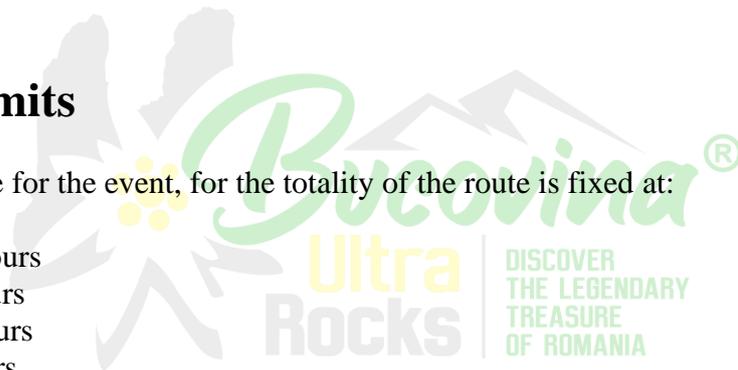

All competitors excluded from the race who wish to continue the route can only do so after having returned their race-bib and under their own responsibility and in complete autonomy.

19. Security and medical assistance

It is up to a runner in trouble or seriously hurt to call for the help:

By going to an aid station, By calling race HQ, By asking another runner to alert the security service, activate the SOS button from LIVE RUN app.

Every runner must give assistance to any person in danger and alert security services.

In the case where it is impossible to contact race HQ, you can make a direct call to the national security service (most particularly if you find yourself in a zone where only emergency calls are possible: **112**)

Do not forget that hazards of all sorts, linked to the environment and the race, may require you to wait for assistance for a longer time than expected. Your security, therefore, depends upon the quality of the equipment which you have put in your pack.

All the personnel, medics, paramedics, search and rescue and official guides, as well as any person so designated by the organization, can:

exclude any competitor from the race who is judged to be unable to continue the event

oblige any competitor to use any element of obligatory equipment

have evacuated by any means any runners who are judged to be in danger

orientate patients to a better treatment structure which is better adapted to their needs

A runner who contacts doctor or rescue personnel submits themselves to their authority and agrees to accept their decisions.

As from the moment where the state of a runner's health justifies treatment via an intravenous drip, they are obligatorily excluded from the race.

An infirmary/ambulance will be accessible in Campulung Moldovenesc finish line throughout the duration of the event. Competitors who have a severe medical problem may present themselves. Minor treatments will be carried out at the discretion of the personnel and subject to their availability.

Each runner must stay on the way-marked route, even to sleep.

All runners who voluntarily venture from the way-marked course are no longer under the responsibility of the organization.

20. Ranking and prizes

Age categories:

For each race, a general ranking, male and female, and for each category, male and female, is established.

110k : the first 10 men and the first 10 women in the general ranking

88k : the first 5 men and the first 5 women in the general ranking

48k, 33k, 15k: the first 3 men and the first 3 women in the general ranking, as well as the winner in each category, receive a trophy.

180k: first 3 men and women

Runners must be present at their prize giving. The trophies are only distributed at the ceremony. Results will be published at the official website at www.bucovinaultra.rocks.

21. Abandonment and repatriation

Except in the case of injury, a runner must not abandon outside of an aid station. They must inform the person responsible for the post. In the case of the decision to abandon between two aid stations, the runner must go to the next aid station where they announce their abandonment. The runner keeps hold of their race-bib because it is the pass for accessing shuttle buses, buses, meals, treatment rooms...Repatriation will be organized from each aid station. Injured or sick athletes will have a priority. In case of total stoppage of the race, the organization ensures the repatriation of the runners as fast as possible.

22. Penalties and disqualification

Race officials present along the race-route, and those responsible for the different aid stations and security posts are able to enforce the regulations and immediately apply a penalty in the case of non-respect for these regulations, according to the following chart:
